General Information

Items are listed in alphabetical order for quick reference.

Acceptable Sound Levels

INDOOR EXHIBITS - Excessive sound can be offensive and distracting. Each Exhibitor is entitled to an atmosphere that is conducive to conducting business, without excess noise from other Exhibitors. Any audio equipment (i.e., sound system, audio from a video wall, microphones), whether in the booth or as part of a display, may not exceed a sound level of seventy-five (70) decibels. BCB Brooklyn will be sensitive and responsive to complaints registered by spectators, neighboring Exhibitors, or other personnel, and will have appointees to respond to all complaints. The following rules and regulations will apply to ensure the appropriate business atmosphere of the 2025 Bar Convent Brooklyn Show:

- Self-supported audio equipment must be directed inwardly, toward your exhibit, as opposed to outwardly toward aisles or neighboring exhibits.
- Audio equipment must not violate the height restriction applicable to the booth.
- Decibel levels will be measured from the center of surrounding aisles. In the event audio equipment exceeds the 70-decibel requirement or is determined, by BCB Brooklyn, to affect neighboring Exhibitors negatively, the following procedures will be in effect:
 - **First Notice:** The offending Exhibitor will be notified and asked to comply with the stated guidelines. This notice will be documented.
 - **Second Notice:** The offending Exhibitor will be issued a written caution, noting violation of sound limits has been repeated, and will be instructed to reduce the volume immediately.
 - **Third and Final Notice:** The exhibit's electrical source(s) will be terminated, at Exhibitor's expense, for the remainder of the day. The Exhibitor will be given a 15 minute window of time prior to termination of electrical service, to take necessary precautions for their equipment. The Exhibitor will assume full responsibility for any damage to their exhibit or demonstration resulting from their failure to adhere to show rules. Electrical service may be reconnected, the following day prior to show opening, at Exhibitor's expense. In addition to decibel measurements, Reed Exhibitions reserves the right to determine an Exhibitor's compliance with or violation of these sound level restrictions. We ask that each Exhibitor monitor their own booth to ensure a professional atmosphere on the show floor for all Exhibitors and attendees.

OUTDOOR EXHIBITS - There is NO amplified sound allowed in the courtyard before 5pm. This will be strictly reinforced by both BCB Brooklyn show management and Industry City management.
